

OUTLIER GROWTH

as of March 31, 2022

OBJECTIVE

The Outlier Growth strategy seeks capital appreciation by attempting to identify stocks early in a growth cycle. These equities are viewed as candidates that could dramatically outperform the stock market, hence the name 'outliers.'

PERFORMANCE (%)		Inception Date: 11/1/2020	
Average (Annual)	2022 YTD	1-Year	Inception
Outlier Growth, Gross	(13.51)	3.64	15.31
Outlier Growth, Net	(13.82)	2.35	13.88
Russell 3000	(5.28)	11.92	26.50

Data quoted represents past performance, which is no guarantee of future results.

POTENTIAL BENEFITS

Seeks capital appreciation from exposure to U.S. growth companies which attract significant institutional interest.

Diversification beyond typical 'blue chip' equity portfolios.

Active management focused on mitigating downside risk of individual companies.

Systematic and disciplined investment approach.

PORTFOLIO CONSTRUCTION

1ST | Universe

MAPsignals weekly ranking of equities with unusual spikes in volume are used to identify where material institutional money may be directed.

2ND | Rate

Apply William O'Neil's composite rating to score the strength of fundamentals and technicals of the identified volume-outlier stocks.

3RD | Screen

Utilize Revelation Research to analyze downside risk based on valuation, growth, fundamentals, and sentiment.

4TH | Decision

Generate a proprietary quantitative score to guide buy and sell decisions. The quantitative nature of the portfolio may result in higher than typical turnover.

SUPPLEMENTAL INFORMATION (%) (as of 3/31/2022)
Inception Date: 11/1/2020

	Annual Performance Returns - Institutional (Net of Fees) vs Benchmark (Russell 3000 Index)			Rolling Average (Net, Annualized)	
	2020	2021	2022 YTD	1-Year	Inception
Institutional, Net	13.00	24.56	(13.62)	3.17	14.79
Benchmark	17.21	25.66	(5.28)	11.92	26.50

Supplemental Information, consisting of the Institutional Performance (Net of Fees), is presented to show composite performance when the maximum institutional fee of 0.45% is applied to the composite's gross return. Innovative Portfolios did not have fee paying institutional clients for all the periods presented above. Institutional Performance (Net of Fees) is supplemental to the Annual Portfolio Performance Presentation.

Organization: Innovative Portfolios, LLC ("IP"), established in 2015, is registered as an investment advisor with the Securities and Exchange Commission. IP is wholly owned by Sheaff Brock Capital Management, LLC ("SBCM"). IP claims compliance with Global Investment Performance Standards (GIPS®).

Description: The Outlier Growth Composite invests in approximately 33 stocks of high-quality rapidly growing U.S. companies. The investment objective of the composite is capital appreciation. The Outlier Growth Composite consists of fully discretionary portfolios, including those accounts no longer with the firm. The composite excludes portfolios under \$50,000. For comparison purposes the composite is measured against the Russell 3000 Index. The Composite was created on January 1, 2021 and the inception date is November 1, 2020.

IP acquired the composite through a subadvisor agreement with Sheaff Brock Investment Advisors, LLC (SBIA), wholly owned by SBCM, in December 2020. Performance prior to January 1, 2021 occurred while the investment management team was affiliated with SBIA. The same investment management team has managed the composite since its inception, and the investment process has not changed. Performance prior to January 1, 2021 is linked to performance earned at SBIA.

Performance presented are time-weighted returns. Valuations and performance is reported in U.S. dollars. Composite performance is presented on gross-of-fees and net-of-fees basis and includes the reinvestment of income (dividends/interest). Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns are calculated by deducting a model management fee of 0.3125, ¼ of the highest annual management fee of 1.25%, from the quarterly gross composite return. Actual advisory fees incurred by clients may vary. Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request.

The benchmark is the Russell 3000, a market-capitalization-weighted equity index that provides exposure to the entire U.S. stock market, tracking 3,000 of the largest U.S.-traded stocks. An index should only be compared with a mandate that has a similar investment objective. An index is not available for direct investment and does not reflect any of the costs associated with buying and selling individual securities or management fees, the incurrence of which would have the effect of decreasing historical performance results. There can be no assurances that a composite will match or outperform any particular benchmark.

Past performance is no guarantee of future performance and there is a risk of loss of all or part of your investment. Individual client performance returns may be different than the composite returns listed. Changes in investment strategies, contributions or withdrawals, and economic conditions may materially alter the performance of your portfolio. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment or strategy will be suitable or profitable for a client's portfolio. Information is obtained from sources IP believes are reliable, however, IP does not audit, verify, or guarantee the accuracy or completeness of any material contained herein.

Certain information expressed represents an assessment at a specific point in time and is not intended to be a forecast or guarantee of future performance, nor is it intended to speak to any future time periods. The information and data in the composite overview does not constitute legal, tax, accounting, investment, or other professional advice. The information provided in the composite overview should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in the composite at the time you receive the composite overview or that securities sold have not been repurchased. The securities discussed may not represent the entire portfolio. It should not be assumed that any securities transaction or holding discussed was or will prove to be profitable, or that the investment recommendations or decisions in the future will be profitable or will equal the investment performance of the securities discussed herein.

1 Dividend yield is calculated by dividing the dividends per share for the last 12 months by the current price of the equity security. The dividend yield is based on composite holding as of the date of the report. Dividend yield does not account for any realized or unrealized gain/loss on the holdings in the composite. Dividend yield does not reflect the deduction of management fees, and if reflected, the fee would reduce any performance data quoted. Dividend yield is a measurement at a point in time which may differ significantly in the future based upon the holdings in the composite, the price of the securities and the actual dividends paid.
