

OUTLIER GROWTH

as of March 31, 2023

OBJECTIVE

The Outlier Growth strategy seeks capital appreciation by attempting to identify stocks early in a growth cycle. These equities are viewed as candidates that could dramatically outperform the stock market, hence the name 'outliers.'

PERFORMANCE (%)		Inception Date: 11/1/2020

Supplemental Information, consisting of the Institutional Performance (Net of Fees), is presented to show composite performance when the maximum institutional fee of 0.45% is applied to the composite's gross return. Innovative Portfolios did not have fee paying institutional clients for all the periods presented above. Institutional Performance (Net of Fees) is supplemental to the Annual Portfolio Performance Presentation.

Organization: Innovative Portfolios, LLC ("IP"), established in 2015, is registered as an investment advisor with the Securities and Exchange Commission. IP is wholly owned by Sheaff Brock Capital Management, LLC ("SBCM"). IP claims compliance with Global Investment Performance Standards (GIPS®).

Description: The Outlier Growth Composite invests in approximately 33 stocks of high-quality rapidly growing U.S. companies. The investment objective of the composite is capital appreciation. The Outlier Growth Composite consists of fully discretionary portfolios, including those accounts no longer with the firm. The composite excludes portfolios under \$50,000. For comparison purposes the composite is measured against the Russell 3000 Index. The Composite was created on January 1, 2021 and the inception date is November 1, 2020.

IP acquired the composite through a subadvisor agreement with Sheaff Brock Investment Advisors, LLC (SBI), wholly owned by SBCM, in December 2020. Performance prior to January 1, 2021 occurred while the investment management team was affiliated with SBI. The same investment management team has managed the composite since its inception, and the investment process has not changed. Performance prior to January 1, 2021 is linked to performance earned at SBI.

Performance presented are time-weighted returns. Valuations and performance is reported in U.S. dollars. Composite performance is presented on gross-of-fees and net-of-fees basis and includes the reinvestment of income (dividends/interest). Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns are calculated by deducting a model management fee of 0.3125, ¼ of the highest annual management fee of 1.25%, from the quarterly gross composite return, applied the first month of each quarter. Actual advisory fees incurred by clients may vary. Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request.

The benchmark is the Russell 3000, a market-capitalization-weighted equity index that provides exposure to the entire U.S. stock market, tracking 3,000 of the largest U.S.-traded stocks. An index should only be compared with a mandate that has a similar investment objective. An index is not available for direct investment and does not reflect any of the costs associated with buying and selling individual securities or management fees, the incurrence of which would have the effect of decreasing historical performance results. There can be no assurances that a composite will match or outperform any particular benchmark.

Past performance is no guarantee of future performance and there is a risk of loss of all or part of your investment. Individual client performance returns may be different than the composite returns listed. Changes in investment strategies, contributions or withdrawals, and economic conditions may materially alter the performance of your portfolio. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment or strategy will be suitable or profitable for a client's portfolio.
